

# iM-TRIK

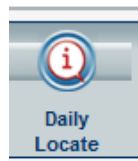

USER GUIDE

Go to the Vehicle tab.

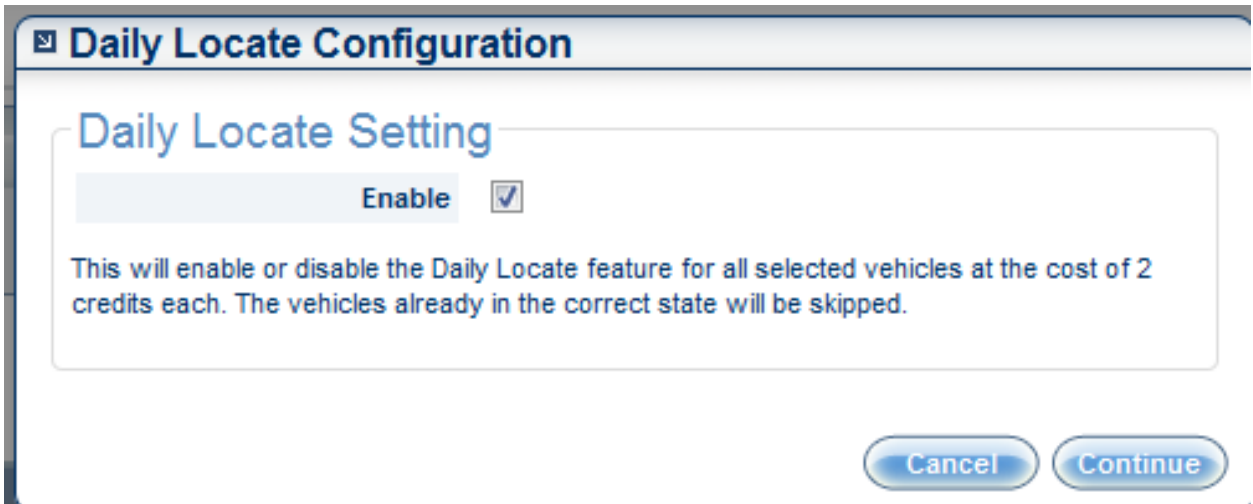

Select a device that supports the Daily Locate feature.

Once the device is selected click on the  button.

The following pop-up window will appear.

If the Enable setting is checked, this will turn on the Daily Locate feature.

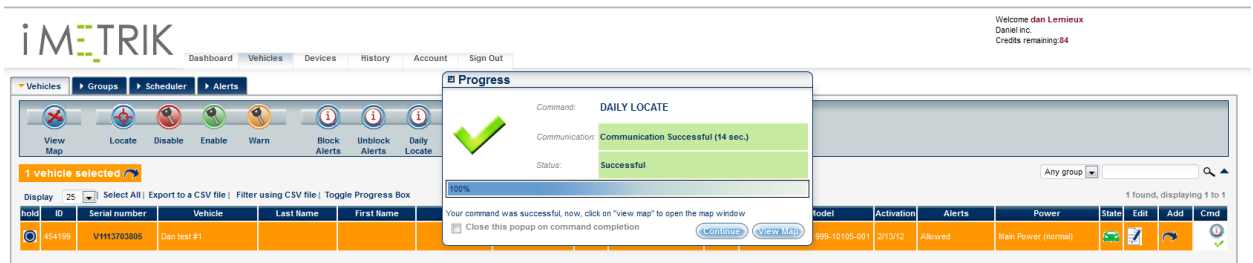

If it is unchecked, like so

then the command if sent will turn off the Daily Locate feature.

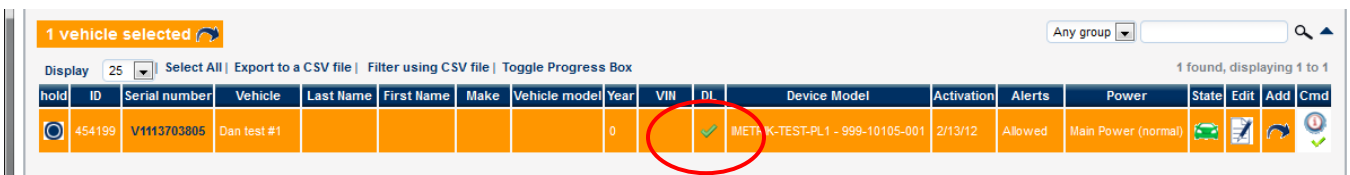

Click on

to send the command. This will cost 2 credits.

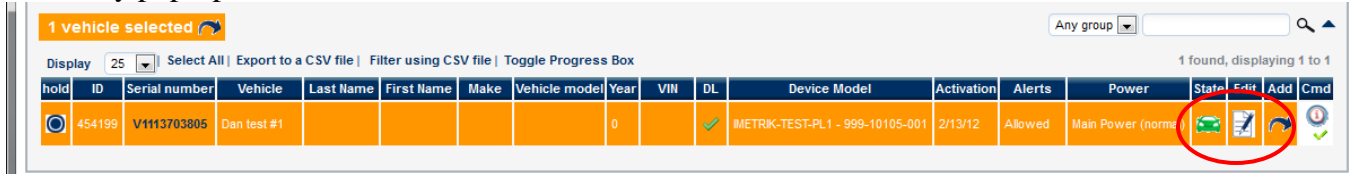

When the Daily Locate feature is turned on the device will show a “check” like in the image below.

When the Daily Locate feature is turned on, the device will be sent a locate command every 25 hours. The results may be found in the Locations or Commands tab.

To view the Locations tab, simply click on the edit button to bring up the Vehicle Summary pop-up window.
